Problem found

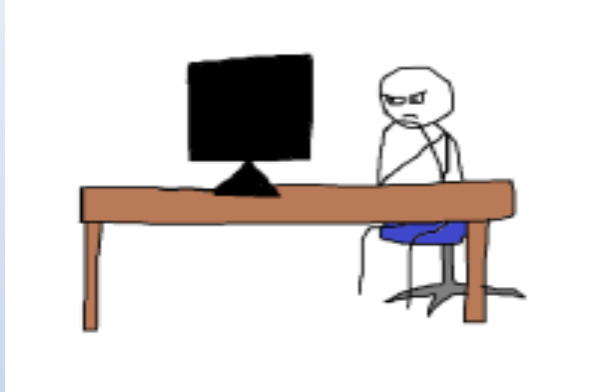

- Have lots of adds that pop up to the user.
- Don't have that nice wallpapers.
- No discussion platform for wallpapers uploaded on a website
- Most need account for the user to upload his design onto the website.

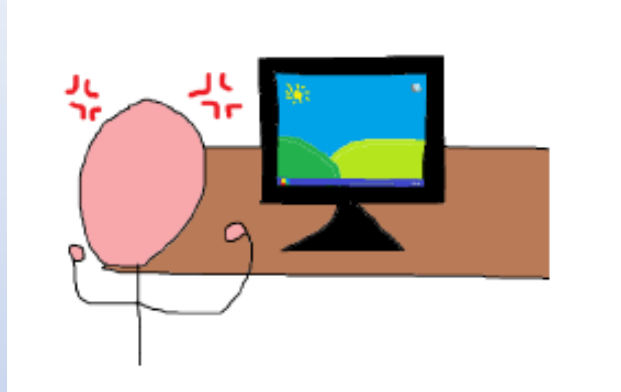

Solution thought off

- **Create a wallpaper website add-free.**
- **Have cool wallpapers for all kinds of device platforms.**
- **Add a discussion platform for each single wallpaper uploaded on the website.**
- **No need to have an account for a user to upload a wallpaper on the website.**

Explained
Storyboard

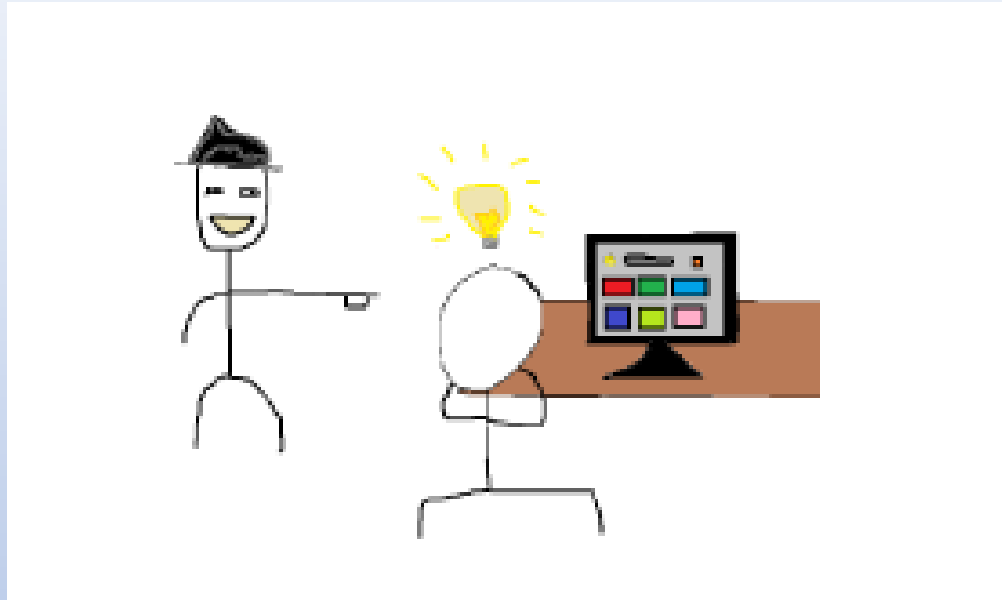

Scene 1 : Main person sitting at the computer with the person visually annoyed at the computer.

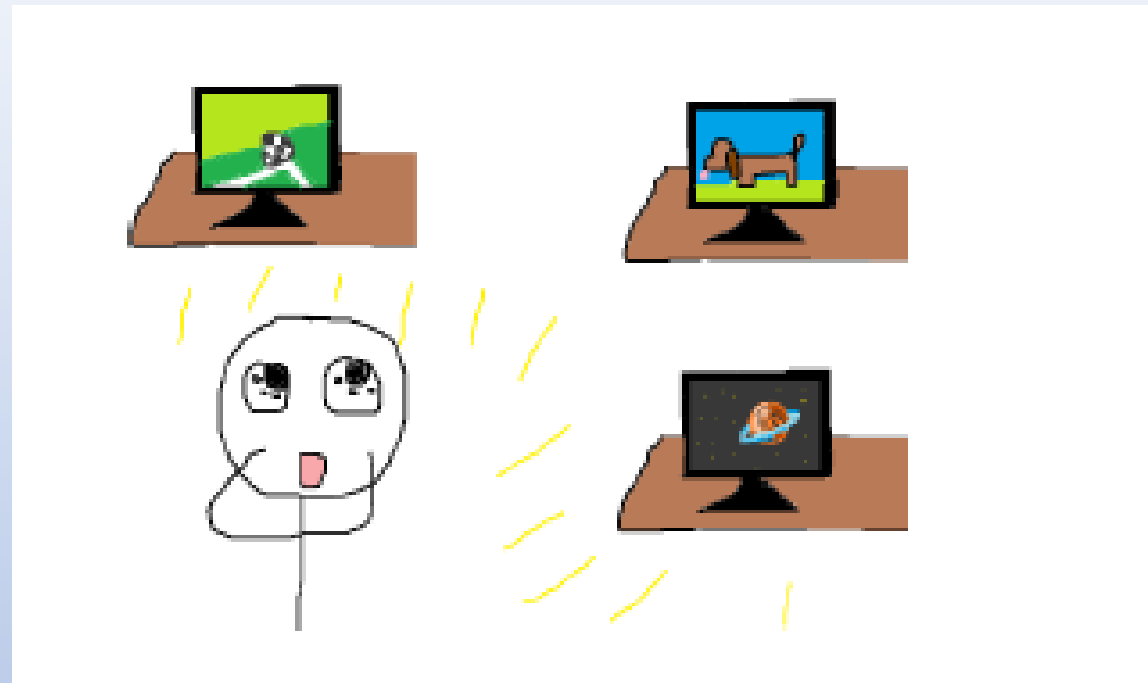

Scene 2 : Main person annoyed at the typical basic desktop background.

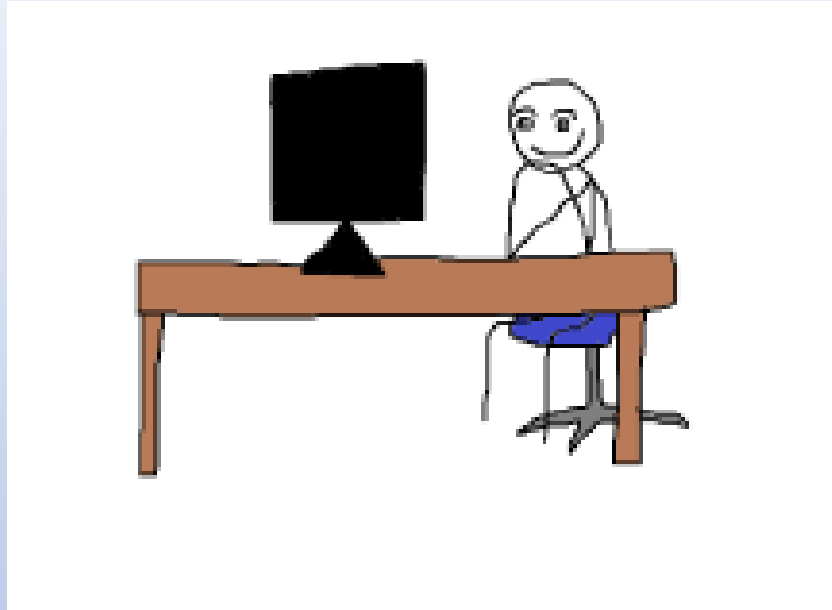

Scene 3 : Man still annoyed at the screen with another man seeing his annoyed state.

Scene 4 : Other man shows the annoyed man the new website and has an idea.

Scene 5 - Annoyed man is now fascinated by the website's backgrounds.

Scene 6 : Original man is now happy with the knowledge of the new background website.
